

Flathead Electric Cooperative, Inc.TARIFF SCHEDULE – 25
LARGE GENERAL SERVICE – Border Loads
30 KW UP TO 1000 KWAVAILABLE:

In all territory served by Cooperative in southern Montana along the Montana-Wyoming border.

APPLICABLE:

To members whose entire electric service requirements are supplied hereunder, and whose loads have registered 30 kW or more and at the same time have not registered more than 1,000 kW in any month in a consecutive 12-month period. Deliveries at more than one point, or more than one voltage and phase classification, will be separately metered and billed. Service for intermittent, partial requirements, or highly fluctuating loads, or where service is seasonally disconnected during any one year period will be provided only by special contract for such service.

MONTHLY BILLING:

The Monthly Billing shall be the sum of the Basic, Demand, Energy, and Reactive Power Charges; plus applicable Metering and Delivery Adjustments, but not less than the Minimum Charge.

| | <u>Delivery</u> | <u>Trans- mission</u> | <u>Power Purchases</u> | <u>Total Rate</u> |
|-------------------------------|-----------------|---------------------------|----------------------------|-----------------------|
| Basic Charge | | | | |
| Single Phase | \$42.00 | | | \$42.00 |
| Three Phase | \$72.00 | | | \$72.00 |
| Per kW Load Size* for >=20 kW | \$1.23 | | | \$1.23 |
| Demand Charge | | | | |
| Per kW for 20-100 kW | \$2.707 | | \$0.193 | \$2.90 |
| Per kW for >100 kW | \$2.387 | | \$0.193 | \$2.58 |
| Energy Charge | | | | |
| Per kWh for first 5,000 kWh | 1.890¢ | 0.380¢ | 6.060¢ | 8.330¢ |
| Per kWh for 5,001-150,000 kWh | 1.460¢ | 0.380¢ | 6.060¢ | 7.900¢ |
| Per kWh for >150,000 kWh | 0.360¢ | 0.380¢ | 6.060¢ | 6.800¢ |
| Reactive Power Charge | | | | |
| Per kVar | | | \$1.29 | \$1.29 |
| Primary Voltage | | | | |
| High Voltage Charge | \$45.00 | | | \$45.00 |
| Load Size Discount/kW | 15.0¢ | | | 15.0¢ |

MINIMUM CHARGE:

The minimum monthly charge shall be the Basic Charge. A higher minimum may be required under contract to cover special conditions.

Flathead Electric Cooperative, Inc.TARIFF SCHEDULE – 25
LARGE GENERAL SERVICE – Border Loads
30 KW UP TO 1000 KWBASIC CHARGE - kW Load Size:

kW load size, for determination of the Basic Charge, shall be the highest non-zero monthly demand established during the 12-month period which includes and ends with the current billing month. The kW load size charge will be billed monthly. For seasonal members, the kW load size charge may be billed six times a year at a rate twice the monthly billing rate or billed four times a year at a rate three times the monthly billing rate during peak seasonal periods as determined by the Cooperative.

REACTIVE POWER CHARGE:

The maximum 15-minute reactive demand for the month in kilovolt-amperes in excess of 30% of the measured kilowatt demand for the same month will be billed at the Reactive Power Charge referenced above.

PRIMARY VOLTAGE METERING AND DELIVERY ADJUSTMENTS:

The above monthly charges are applicable without adjustment for voltage when delivery and metering are at Cooperative's standard secondary voltage.

- Metering: For so long as metering voltage is at Cooperative's available primary distribution voltage, the above charges will be reduced by 1.5%.
- Delivery: For so long as delivery voltage is at Cooperative's available primary distribution voltage, the total of the above charges will be reduced as indicated under Load Size Discount on a per kW of demand billed in the month. A High Voltage Charge as indicated above will be added where such deliveries are metered at the delivery voltage.

When a new or existing member requests delivery of power that requires a Cooperative-owned transformer(s) at a voltage other than a locally standard distribution voltage, the above charges for any month will be increased by 15¢ per kW of demand billed in the month.

Cooperative retains the right to change its line voltage or classifications at any time, and after reasonable advance notice to any member affected by such change, such member then has the option to take service at the new line voltage or to accept service through transformers to be supplied by Cooperative subject to the voltage adjustments above.

DEMAND:

The kW shown by or computed from the readings of Cooperative's demand meter for the 15-minute period of member's greatest use during the month, determined to the nearest one-tenth of a kW.

SPECIAL CONDITIONS:

Member shall not resell electric service received from Cooperative under provisions of this schedule to any person, except by written permission of Cooperative and where member meters and bills any of his tenants at Cooperative's regular tariff rate for the type of service which such tenant may actually receive.

TARIFF SCHEDULE – 25
LARGE GENERAL SERVICE – Border Loads
30 KW UP TO 1000 KW

CONTINUE SERVICE:

This schedule is based on continuing service at each service location. Disconnect and reconnect transactions shall not operate to relieve a customer from monthly minimum charge.

TERM OF CONTRACT:

Cooperative may require the customer to sign a written contract which shall have a term of not less than one year.

RULES AND REGULATIONS:

Service under this schedule is subject to Cooperative Board Policies of which this schedule is a part.
